

## June 2026 Energy Surcharge / BCP Charges Update – Fuel Market Ongoing Volatility

Dear Customer,

We are writing to update you on the Energy Surcharge rates for June 2026 on our Channel, North Sea, and Irish Sea routes.

Since March 2026, global marine fuel markets have experienced significant volatility, with notable ongoing substantially higher costs of Marine Gas Oil (MGO). These fuel price movements have directly impacted yet again the Fuel Surcharge component of the Energy Surcharge for June.

Our calculation methodology remains unchanged, and each component of the Energy Surcharge—Fuel Surcharge, ETS, and CO<sub>2</sub>—continues to be calculated and updated in line with our established mechanisms. While ETS and CO<sub>2</sub> related costs have remained broadly stable this month, the substantial rise in MGO prices has resulted in a material increase in the Fuel Surcharge element.

The combined effect of these inputs is reflected in the June Energy Surcharge. We recognise that changes of this scale can impact your cost planning, and we remain committed to providing transparency around the underlying drivers of monthly adjustments.

Please see below our Energy Surcharges (Fuel / CO<sub>2</sub>) and BCP charges as from 1st June 2026. All rates quoted are per unit, per shipment.
